CAREER SUMMARY

Full Stack Developer with 4+ years of experience building scalable web and mobile applications using modern technologies like React Native, Node.js, and GoLang. Proven track record of delivering high-performance solutions, from cross-platform mobile apps (iOS/Android) to RESTful APIs. Passionate about optimizing code efficiency. Collaborative team player with expertise in Agile methodologies, end-to-end system integration, and mentoring junior developers.

PROFESSIONAL EXPERIENCE

Freelance

Full-Stack Developer

Dec 2024 - Present

Frontend Development:

- Developed the Fantasy Tunisia mobile application using React Native, achieving cross-platform compatibility for both iOS and Android users.
- Designed and developed a high-performance, user-friendly mobile application.

Backend Development:

- Developed and maintained a scalable backend using GoLang.
- Implemented RESTful APIs to efficiently manage user data, team management, and real-time updates.
- Ensured secure and efficient data handling with Supabase, achieving data integrity and security.

Integration:

- Integrate frontend and backend components effectively to deliver a cohesive product.

Technologies used:

GoLang React Native Supabase Expo Go React Material UI

Backend Developer

Digital Natives

Aug 2024 - Nov 2024

- Designed and developed robust RESTful APIs, handling requests and responses with 99.9% efficiency.
- Designed and maintained relational database schemas in MySQL, optimizing data storage and retrieval.
- Utilized APIDOG.com for comprehensive API documentation, improving development workflow by 100%.
- Performed unit tests on the server using Termius, reducing post-deployment bugs by 100%
